

# EDDIE J. MYERS

**OBJECTIVE:** Construction/Engineering management with a future goal of obtaining my Professional Engineer's license.

## **QUALIFICATIONS**

Experienced in plan reviews, cost estimating, planning, scheduling, permit and license procurement, material and subcontractor procurement, contracts and subcontracts, submittals, monitoring construction progress, schedule updates, punch lists, as built drawings, and project close outs. Familiar with federal, state, and regional building codes and have worked extensively with Mine Safety and Health Administration (MSHA) and Occupational Safety and Health Administration (OSHA) safety regulations. Managed several turnkey design/build construction projects. Possess an excellent understanding of plans and specifications. Familiar with AutoCAD 14, 2000, and 2002, most Microsoft programs, FoxPro, Primavera 3 scheduling program, Timberline and Construction Pro estimating software. Possess a strong practical application of construction practices and procedures.

## **EDUCATION**

1997-2003 Bachelor of Science in Civil Engineering Technology, University of Southern Colorado

1989-1990 General Studies, University of Colorado at Colorado Springs

1984-1986 General Studies, Northern Arizona University

## **EMPLOYMENT**

January 1998-Present Estimator/Project Manager, Industrial Constructors/Managers, Inc. (ICM)  
Duties include estimating, projecting management, scheduling, outside sales, quality control and limited marketing. I maintain a constant customer base at Holcim Cement Plant, Rocky Mountain Steel Mill, Goodrich, Inc., Cripple Creek and Victor Gold Mine, KOAA-TV and Metso Pumps and Processing. Coordinated the implementation and testing of Construction Pro estimating software for ICM.

August 1991-December 1997 Syllabus Editor, Shepard's McGraw-Hill  
Downloaded recently released law cases from Lexus, Inc. Edited the cases for points of law and loaded into a database. Performed product definition to prepare data base information for publication. Managed all statute input and processing for the Pacific Regional Team.

April 1991-August 1991 Field Irrigation Specialist, El Paso County Parks Department  
Duties included layout and installation of commercial irrigation systems. Trouble shot existing irrigation system electrical problems using electrical schematics. Trained in the operation of various types of heavy equipment.

July 1988-February 1991 Molder Class A, Denver Equipment Company  
Prepared high quality wet sand molds resulting in the creation of steel machine parts. Assisted with the pouring of liquid metals into molds, shot blasting, heat treating of parts and grinding. Developed a broad knowledge of foundry operations and procedures.

December 1987-July 1988 Irrigation Specialist, Environmental Construction Company  
Facilitated the installation of irrigation systems and the necessary electrical systems. Obtained schematic and blueprint reading skills for irrigation system installation. Trained others in the operation of heavy equipment.
